

Sophie Saiada - Senior Full Stack Developer

Tel Aviv, Israel - +972 053-830-5431 - sophia.saiada@gmail.com - [linkedin.com/in/sophie-saiada](https://www.linkedin.com/in/sophie-saiada)

🎨 This résumé is the black & white version. For the colorful, complete one, visit sophies.dev 🎨

Senior full stack web developer with **6 years** of hands-on experience. Well-versed in JavaScript, React, and Python, with a product-oriented mindset and domain experience in finance and solar technologies. Drives complex features from concept to launch with autonomy, turning early-stage requirements into polished solutions. Looking for a core development role at a high-velocity, hybrid startup.

EDUCATION

Bachelor of **Computer Science** (*Dean's List* - avg. **96.7**) - Netanya Academic College 2019 (while in **high school**)

WORK EXPERIENCE

Senior Full-Stack Web Developer - Rhino Eco 02/2024 - 06/2025 (**1 year 5 months**)

- Designed and implemented the company's **primary technological asset**, an intuitive and efficient solar system design tool that reduced lead-to-offer time from **4 days to minutes**.
- Led integrations with a wide range of industry-standard and financing APIs, including Solar API for automated system design, Genability for utility and incentive data, and Palmetto for solar lease financing.
- Developed core features from initial concept design to deployment, refining user flows from offer creation through sales interactions to final checkout, while consistently improving application performance and observability (via Datadog and Vercel APM), and optimizing CI/CD pipeline reliability.

Senior Full-Stack Web Developer - FeezBack 02/2022 - 12/2022 (**11 months**)

- Acted as the **right-hand to a new CTO**, contributing detailed big-picture insights to key decisions.
- Participated in various **design and integration meetings**, engaging with **clients** and internal teams.
- Recruited 2 developers, **interviewed** candidates, personally oversaw **onboarding**, and mentored.
- Led the design and construction of Israel's leading Open Banking B2B2C solution (trusted by Discount Bank, Leumi, Isracard, MAX, and many more), featuring a Python-based backend (API servers and workers deployed both on AWS and on-prem), user interfaces built in React, and companion SDKs for Android, iOS, and Web.

Full-Stack Web Developer - FeezBack 06/2018 - 01/2022 (**3 years 7 months**)

- During a pivotal year, served as the **exclusive hands-on developer** as the startup underwent a substantial reduction in personnel, scaling down from **13 to 3 individuals**, including the CEO and CTO.
- The quick success of the new product **secured funding**, fueling the company's **growth to 15 employees**.
- Independently developed a Python server encompassing robust APIs for order management, secure payment transactions and document signing, along with a customer-facing order management React web app.

SKILLS

React - TypeScript - JavaScript - Python - AWS (API Gateway, Lambda, SQS) - Vercel
NextJS - MongoDB - Django (PostgreSQL & Oracle DB) - Celery (Redis & RabbitMQ) - REST - OpenAPI
HTML - CSS - Tailwind CSS - Kotlin - Swift - Pytest - Playwright - Cypress - Jest
Git - **Docker** - CircleCI - **GitHub** - BitBucket Pipelines - Helm - Kubernetes - Bash

LANGUAGES *Hebrew* - native speaker *English* - full proficiency

VOLUNTEERING

Guide @ **IGY** (Israel Gay Youth) - Co-led a weekly group of LGBTQ+ teenagers from religious backgrounds. 2023

PROJECTS

Programming language in Kotlin - Excel clone in React - Form library in Vue.js
